Information about student dormitories

1. Dormitories of Studentenwerk Bonn

The Studentenwerk Bonn offers about 3.800 rooms within its 35 hostels. Students who are looking for a room in a dormitory have to apply online:

https://tl1host.de/SWBN/wohnheimaufnahmeantrag.html?lang_id=1

While applying it is possible to give some few preferences about the dormitories, which are listed on the Studentenwerk Bonn page.

PLEASE PAY ATTENTION:

In order to apply, it's not necessary to have **any admission** from the university of Bonn, which means You can apply any time for an accommodation. That's why we advise You to apply at the same time for an accommodation and to Bonn University. If your degree course of choice is beginning the next **winter semester**, then you should hand in your application within **March, April and June**;
for the **summer semester** within **October, November and December**.

Once the application is completed, You will get an automatic E-Mail by the Studentenwerk Bonn containing a confirmation link, by which You confirm Your interest in an accommodation. This link will be sent to You **every month** for You to confirm. Without confirming within **5 days**, Your application will be **invalid**. If this happens, please write an E-Mail to Studentenwerk asking to reactivate it again.

In order to apply You must be no older than **30 y.o.**.

2. Private students accommodations

In Bonn there are also many accommodations offered from private sponsorships. The conditions may differ from the ones of Studentenwerk.
